UC, attached is a General Message regarding the release of marine mammals which were captured during this response. They have been cleaned, rehabilitated and are ready for release.

There are several options which the UC can weigh in on regarding the release process. Wildlife Branch Director would like you to review the attachment and reply with comments/recommendation/guidance.

Thanks, Tom

Thank you, Tom.

I really appreciate your help. Once away from the ICP it is challenging to know who is filling what role on any given day.

Please find attached the General Message 213 that I sent yesterday.

Thanks again,

Holly

Holly, Ryan is a little preoccupied today with some other issues (separate from this response). Please forward me the document which needs to be routed and I will take care of it.

Thanks, Tom

Can someone please forward this to whomever else is in the UC? We are hoping to hear something back today.

Thanks,

Holly

Another release option is to have no media/public present and the rehabbers releasing the sea lions (likely by boat) will take and provide photos with captions to the JIC.
